INTRODUCTION OF IEP

The Institution of Engineers, Pakistan (IEP) is a professional body which works for promotion of Engineering Profession aiming at technological development and economic growth of the country. The Institution holds regular conferences and workshops on related subjects. China Pakistan Economic Corridor (CPEC) is one such initiative which carries the prospects of transforming lives of the people of the region, opening new vistas of development and growth.

INTRODUCTION OF NUST

The National University of Sciences & Technology, commonly referred to as NUST, is a public research university with main campus at Islamabad, Pakistan and other sub-campus are based at Karachi, Risalpur and Rawalpindi. From a modest beginning with military engineering colleges, NUST has gained towering stature, both at the national as well as international, level addressing the needs of a fast changing world. The University main campus continues to expand, both academically and in terms of physical environment, whereas, it's commitment to scientific leadership continues to grow unabated. It is now recognized internationally as a research-led, socially-engaged university, distinguished by its multi disciplinary programmes and focus on emerging technologies.

CPEC

China Pakistan Economic Corridor is major initiative of Chinese and Pakistani Governments. This mega Project consist of major Energy, Infrastructure and Industrial Project. It has the potential of changing the future of the People of Pakistan. It appears that the dream of every Pakistani to make Pakistan the Asian Tiger is coming true in not too distant a future.
